RE: Technical Game Designer

Dear Hiring Manager,

I was excited to learn about the Technical Game Designer position with Thatgamecompany posted on your company website and would greatly appreciate your considering my placement in this role. I've closely reviewed the needs and requirements for this role and believe that my qualifications have prepared me to contribute immediate value to your organization.

While in school, I worked hard to hone my specification development and process improvement skills. I am focused and attentive to detail when addressing high-volume task loads to meet deadlines. I am inspired by making a positive impact by applying project management skills and my problem-solving abilities allow me to address challenges to achieve results.

My academic experiences have served me well in developing my collaboration, problem-solving, and teamwork skills. I work well to use clear and concise communication to interact professionally with co-workers, supervisors, and customers. I look forward to speaking with you regarding my skill set and attributes which I believe will serve as an asset to support Thatgamecompany's goals. Please take a moment to review my attached resume. Thank you for your time and consideration.

Sincerely,

Daniel Lopez Dib
